YUAN CHIN -
Web Developer

CAREER OBJECTIVES

A motivated student specializing in web development, seeking an internship or entry-level role. I combine a strong work ethic with a focus on adaptability, ready to contribute to team success while improving my skill set and establish stronger connections.

PROJECTS

GYAT HUB E-Commerce Store | Full-Stack Developer

- Developed a PHP/MySQL PS5 game store with a custom "gaming-themed" UI and high-contrast design.
- SQL logic for order tracking and built an admin dashboard to manage live sales and inventory.
- Implemented hashed authentication and automated checkout, converting manual sales into a 24/7 digital storefront.

2025

KOMA PH Inventory and Order Management System | Full-Stack Developer

- Built a full-stack web app using MongoDB, Express, Vue, and Node.js to automate inventory and order workflows for a clothing brand.
- Developed a responsive Vue.js frontend connected via Fetch API for instant stock updates and seamless order placement.
- Implemented secure authentication and bcryptjs encryption, ensuring full compliance with the Data Privacy Act of 2012.

2025
